About this camp

- Children who have already completed Kindergarten get to take on a leadership role and showcase their skills, increasing confidence and preparing for first grade.
- This exciting and interactive group focuses on the following skills: easing transitions, understanding the expectations of a classroom, handwriting readiness, making new friends, following directions and self regulation in a classroom setting.
- The group is guided through a sensory integrative approach of movement, art and music. Lessons are taught in a multi sensory environment to help children optimize learning.
- The self-regulation curriculum, “The Zones of Regulation” is implemented to assist the children in preparing themselves (self-regulation) for optimal learning.
- Recommendations for follow through and reinforcement of learned skills at home is provided
